

## Gafner Maschinenbau AG

Represented by Schmid and Mägert AG

[www.s-m.ch/](http://www.s-m.ch/)

[www.gafner-streuer.ch/en/spreader/](http://www.gafner-streuer.ch/en/spreader/)

Founded in 1985

Products: Production of manure and compost spreaders main part, production of pasture turnstiles secondary part.

Employees: 10

Manufactured exclusively in Switzerland at our site in Laupen-Wald, Zurich Oberland

Spreaders manufactured since 1985, over 11,000

Current annual figures for new machines approx. 130-160 spreaders

Sales area: Switzerland, Italy (South Tyrol), Austria, France, Germany, Norway and further afield.

The Gafner spreader models are available for every requirement; whether as a trailer for a larger loading area and frequent use or as a body for maximum flexibility with low outlay.

The vario model provides the basis for every other spreader model. The highest Swiss quality, the best design and safety on any terrain are always guaranteed.
